

Baptism's

Baptism or Christening at Saint Paul's

Christening, the Sacrament of Baptism, is always the celebration of
new life

a new baby and the new life in Christ

Baptism is particularly joyful when it takes place during the Sunday
service at 10:30

Baptism is, after all, the sacrament of membership in the family of
God.

The celebration of Baptism at other times is also possible.

It is always preferable for the family to attend services for a while before the celebration of Baptism itself, so that the child and his or her parents begin to feel like members of the community here. Older children may be asked to attend [Sunday club](#) regularly or to participate in the preparation programme for [Early Communion](#) to help them prepare for the sacrament.
